Salesforce Summer Program – Day 1

□ Goal for Today

By end of today, you should understand:

- What Salesforce is
- What CRM means
- What a Salesforce Developer does
- Basic Salesforce environment (Playground)

□ Trailhead Modules (COMPLETE TODAY)

Follow this order strictly:

1. Salesforce Values: Quick Look (~5 min)

□ Just understand what Salesforce stands for

---

2. Salesforce Developer: Quick Look (~5 min)

□ Understand:

- What developers do
- Why this role is important

---

3. Salesforce CRM (~50 min) □ MOST IMPORTANT

□ Focus on:

- CRM concept
- Business workflow
- Customers, sales, pipeline

---

4. Trailhead Playground Management (~1.5 hrs)

□ VERY IMPORTANT (Hands-on)

You will learn:

- What is a Playground (your practice environment)
- How to create and manage it
- How to attempt challenges

□ Videos (Watch ONLY these)

1. What is CRM + Salesforce Overview

https://www.youtube.com/watch?v=ZK-rNEhJIDs

Focus:

- Why CRM exists
- How companies use Salesforce

---

2. Accounts, Contacts, Opportunities Explained

https://www.youtube.com/watch?v=9GqQ3h2h8wQ

Focus:

- Account = company
- Contact = person
- Opportunity = deal

□ Core Task (MANDATORY)

Task 1: Understand Business Flow

Explain in your own words:

Lead → Contact → Opportunity → Customer

Task 2: Real-Life Mapping

Choose ONE:

- College Admission
- Hospital
- Event System

Fill this:

Account = ?
Contact = ?
Lead = ?
Opportunity = ?

□ GitHub Submission

Create folder:

/day1-crm-basics/

Add README.md with:

1. What is CRM
2. Why companies use Salesforce
3. Explain:
    - Account
    - Contact
    - Opportunity
4. Your real-world mapping
5. Screenshots from Trailhead

□ □ Rules

- Do NOT watch random videos
- Do NOT rush badges
- Focus on understanding
- Spend 2–3 hours maximum

□ End of Day Outcome

You should be able to clearly explain:

- What Salesforce is

- What CRM is
- Basic business workflow
- Your Playground setup
